SAFETY INSTRUCTIONS

- The installation and repair work must be undertaken by a qualified and competent person.
- The manufacturer disclaims all liability for any damage or injury caused as a result of not following the instructions of installation.
- The cooker hood supply should be 220V-240V~50Hz.
- Children less than 8 years of age shall be kept away unless continuously supervised.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- Cleaning and user maintenance shall not be made by children without supervision.
- When the hood is in repair, maintenance, replacement of parts, please pull out the plug to ensure the safety of people.
- Plug the power cord into the power socket outlet with earthing continuity terminal.
- The cooker hood is for home use only, not suitable for commercial purposes.
- The cooker hood and its filter mesh should be cleaned

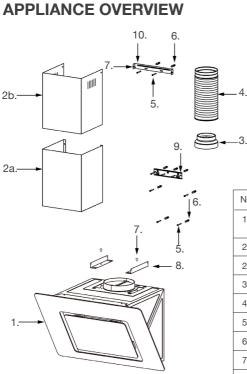

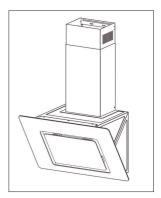

regularly according to the instructions.

- Do not use open flame, or allow oil to go beneath the appliance.
- Do not check that status of the filters whilst the cooker hood is operating.
- Do not touch the light bulb within half an hour after appliance is used.
- If any fault occurs with the appliance, please call after-sale service department.
- Please keep the kitchen well ventilated when in use.
- Prior to any maintenance or cleaning, ensure the power is off.
- Constantly check food frying to avoid the overheating of oil which may become a fire hazard.
- If the supply cord is damaged, it must be replaced by the manufacturer, service agent or similarly qualified person in order to avoid a hazard. The replaced power cord should be provided by manufacturer or seller.
- If the plug or cord is damaged, please call after-sale service centre.
- There is a fire risk if cleaning is not carried out in accordance with the instructions.
- In case of a damaged connecting wire, please refer to the manufacturer, after-sale service personnel or other qualified technicians.
- Use the unit according to the instructions to avoid fire hazard.
- There shall be adequate ventilation of the room when the range hood is used at the same time as appliances burning gas or other fuels.
- There is a fire risk if cleaning is not carried out in accordance with the instructions.
- Do not flambé under the range hood
- The air must not be discharged into a flue that is used for exhausting fumes from appliances burning gas or other fuels.

• To protect the main body from corrosion of the long term accumulation of dirt, the cooker hood should be cleaned with hot water & non-corrosive detergent every 2 months.

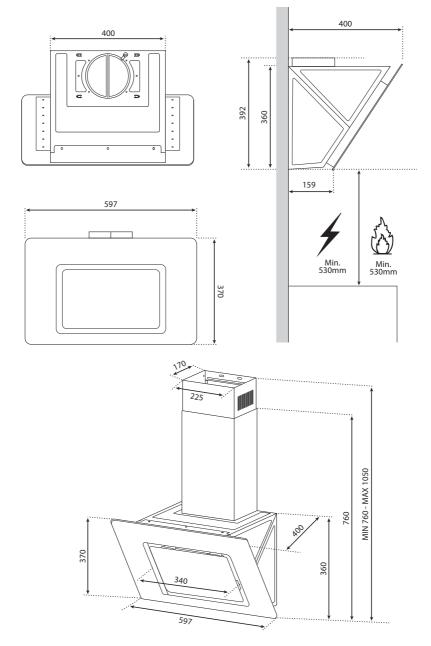

CAUTION: Accessible parts may become hot when used with a cooking appliance

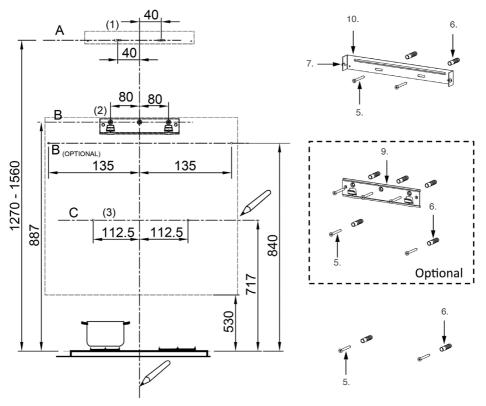

No.	Qty.	Component	
1.	X1	Hood Body, complete with: Controls, Light, Blower, Filter.	
2a.	X1	Lower Decorative Chimney (optional)	
2b.	X1	Upper Decorative Chimney (optional)	
3.	X1	Flange (optional)	
4.	X1	Exhaust Pipe (optional)	
5.	X7	Screws 5 x 50	
6.	X7	Wall Plugs	
7.	X6	Screws 4.2 x 9.5	
8.	X2	Mounting Bracket	
9.	X1	Hood fixing bracket (optional)	
10.	X1	Chimney fixing bracket (0/1 optional)	

Dimensions

INSTALLATON

Wall Drilling and Bracket Fixing

As a first step, proceed with the following drawings:

- A vertical line up to the ceiling or up to the upper limit, at the center of the area in which the hood is to be fitted.
- A horizontal line A at 1270–1560 mm above the cooker top.
- A horizontal line B at a minimum 887 (840 optional) mm above the cooker top.
- A horizontal line C at a minimum 717mm above the cooker top.

Mark Points:

- Mark a point (1) on the horizontal line A, 40 mm to the right of the vertical reference line.
- Repeat this operation on the other side, checking that the two marks are leveled.

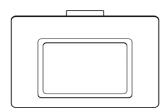

- Mark a point (2) on the horizontal line B, 80 (135 optional) mm to the right of the vertical reference line.
- Repeat this operation on the other side and on the vertical reference line, checking that the three marks are leveled.
- Mark a point (3) on the horizontal line C, 112.5 mm to the right of the vertical reference line.
- Repeat this operation on the other side, checking that the two marks are on the same horizontal line.

Fix the brackets (Optional):

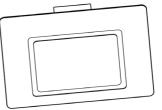

- Drill at the marked points (1) (2) (3), using a φ10 mm drill bit.
- Insert the Wall Plugs **6** into the holes (1) (2) (3).
- Fix the hood fixing bracket **9** with 3 screws **5** (5 x 50) supplied with the hood.
- Fix a Chimney fixing bracket **10** with X2 screws **5** (5 x 50) supplied with the hood.

Hook the hood body:

- Open the panel.
- Remove the Metal grease filter using the handles provided.
- Hook the hood body to the bracket 9.
- · Level the hood body itself.

Wrong

- From the inside of the hood body, fix the screws **7** to Wall Plugs **6** at the points (3).
- Fit the filter into the hood.
- · Close the panel.

STATESMAN kitchen appliances

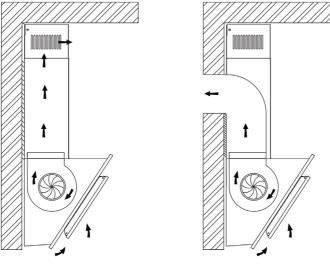

Choose a venting mode

There are two venting modes – extraction-air mode and recirculation mode. Before installing select one mode.

Extraction-air mode, the air is discharged out of the house by a pipe.

Recirculation mode, the air is purified and discharged into the house through two rows of holes on the adjustable decorative cover.

Note: For recirculation mode no pipe is needed; instead install a carbon filter. Suction power will be lowered when a carbon filter is attached.

Recirculation mode

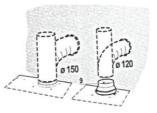

Extraction-air mode

Connections

DUCTED VERSION AIR EXHAUST SYSTEM

When installing the ducted version, connect the hood to the chimney using either a flexible or rigid pipe φ 150 or φ 120 mm, the choice of which is left to the installer.

- To install a φ 120 mm air exhaust connection, insert the reducer flange 3 on the hood body outlet.
- Fix the pipe 4 in position using sufficient pipe clamps (not supplied).
- Remove possible charcoal filters.

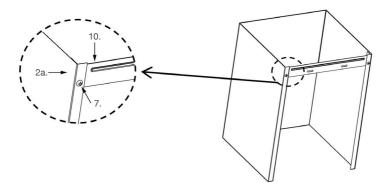

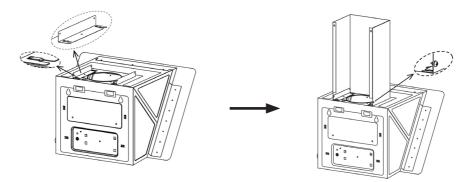

Chimney Assembly

The chimney can only be installed with exhausting hood. Lower Decorative Chimney

• Fix a Chimney fixing bracket **10** onto the Lower Decorative Chimney with X2 screws **7** (4.2 x 9.5) supplied with the hood.

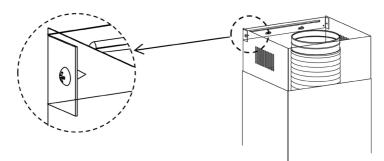

- Hook the brackets **8** onto the hood body, and fix them with X2 screws **7** (4.2 x 9.5), making sure that they are well seated.
- Slightly widen the two sides of the lower chimney and hook then between the brackets 8, fix the lower chimney onto the brackets 8 with X2 screws 7 (4.2 x 9.5) supplied with the hood.

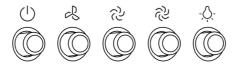

Upper Decorative Chimney

- Slightly widen the two sides of the upper chimney and hook them between the wall and the bracket **10** which is fixed on the Lower Decorative Chimney.
- Fix the upper chimney onto the bracket **10** with X2 screws **7** (4.2 x 9.5) supplied with the hood.

OPERATING INSTRUCTIONS

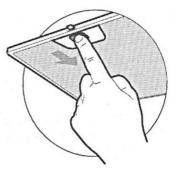

(OFF MOTOR SWITCH: Press on this switch to stop the motor operation.
S	SPEED SWITCH: Press on this switch, the motor runs at LOW speed.
ત્ય	SPEED SWITCH: Press on this switch, the motor runs at MEDIUM speed.
હે	SPEED SWITCH: Press on this switch, the motor runs at HIGH speed.
- <u></u> À-	ON/OFF LIGHTING SWITCH: Press on this switch to turn on the lights, and press again to turn them off.

CLEANING & MAINTENANCE

Grease Filters: Cleaning Metal Self-Supporting Grease Filters

- The filters must be cleaned every 2 months of operation, or more frequently for particularly heavy usage, and can be washed in a dishwasher.
- Pull the comfort panels to open them.
- Remove the filters one by one pushing them towards the back side of the hood unit and simultaneously pulling downwards.
- Any kind of bending of the filters has to be avoided when washing them. Before fitting them again into the hood make sure that they are completely dry. (The color of the filter surface may change throughout the time but this has no influence on the filter efficiency).

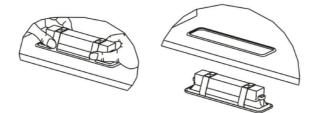

- When fitting the filters into the hood pay attention that they are mounted in correct position the handle facing outwards.
- Close the comfort panel.

Bulb Replacement

1.5W LED light.

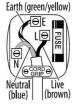

- Switch off the extractor hood and isolate the extractor hood by pulling out the mains plug or switching off the fuse.
- · Remove the grease filter.
- Remove the light by levering its fitting from the hood body (this may require pressure or force to be applied).

	Max Power	Voltage	Picture	Lamp Cap	ILCOS D code
Square / Diameter : 33.2mm x 120mm	1.5W	220-240V~			DBS-1.5- H-33/2/120

- Disconnect the connector of the light.
- Replace the light with a new one of the same type, making sure that you connect the light with the light cable correctly.
- Reinstall the light back to the hood body.

MAINS PLUG FUSE REPLACEMENT

Fuse Replacement (Class I)

This appliance must be earthed. Remove the central screw on the plug and open the shell. Take out the fuse and replace with a new fuse of the same Amp. Install the shell again and tighten the screws.

TROUBLESHOOTING

If you are having problems with your appliance, please use our troubleshooting guide below. If you are unable to resolve the issue using this guide please ring our Customer Service Department on 0844 848 5861. Please have the model code and purchase information available. **Note:** Any repairs should be done by a qualified technician.

Fault	Cause	Solution	
Light on, but motor does not work	The blades are blocked	Remove blockage	
	The capacitor is damaged	Replace capacitor	
	The motor is damaged	Replace motor	
	The internal wiring of motor is cut off/disconnected. An unpleasant smell may produce	Replace motor	
Both light and motor do	Apart from the above mentioned, check the following:		
not work	Light damaged	Replace lights	
	Power cord loose	Connect the wires as per the electrical diagram	
Vibration	The blade, if damaged, can cause vibrating	Replace the blade	
	The motor is not tightly fastened	Fasten the motor tightly	
	The cooker hood is not tightly fixed	Fix the cooker hood tightly	
Insufficient Suction	The distance between the cooker and the cooker top is too large	Readjust the distance	
	Too much ventilation from open doors or windows	Choose a new place to install the appliance or close some doors/windows	
The machine inclines	The fixing screws are not tight enough	Tighten the fixing screw and make it horizontal	
	The hanging screws are not tight enough	Tighten the hanging screw and make it horizontal	

Disposal of Old Electrical Appliances

The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in normal unsorted municipal waste.

Old appliances must be collected separately in order to optimise the recovery and recycling of the materials they contain and

reduce the impact on human health and the environment.

The crossed out "wheeled bin" symbol on the product reminds you of your obligation, that when you dispose of the appliance it must be separately collected. Consumers should contact their local authority or retailer for information concerning the correct disposal of their old appliance.

SERVICE AND SPARE PARTS

Should you experience any difficulty in using your Statesman appliance at any time, you may contact your Statesman Retailer or call our Customer Service Department on:
